SECTION 4 FIRST AID MEASURES

Eye Contact: Immediately flush victim's eyes with large quantities of water for at least 15 minutes, holding the eyelids apart. Get medical attention.

Skin Contact: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation develops. Launder clothing before re-use. (Discard contaminated shoes).

Ingestion: If conscious, wash mouth out with water. Do not induce vomiting. Never give anything by mouth to an unconscious or convulsing person. Get medical attention.

Inhalation: If irritation develops, remove to fresh air. Get medical attention if symptoms persist.
SECTION 5 FIRE FIGHTING PROCEDURES

Extinguishing Media: Water fog, foam, carbon dioxide, water spray or dry chemical.
Firefighting Procedures: Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact containers with water spray. Unusual Fire/Explosion Hazards: High temperatures and sunlight may cause a polymerizing reaction to occur. Decomposition may release acrid smoke or fumes. Known or Anticipated Hazardous Products of Combustion: Acrid fumes, carbon and nitrogen oxides.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Accidental Release Measures: Collect the spilled material then clean the area with soap and water. Exposure to sunlight or artificial light will cause the resin to polymerize. Polymerize by exposure to sunlight. Once the material is hard, pick up and place into a container for disposal.

Personal Precautions: Avoid contact with skin, eyes or clothing.

Environmental Precautions: Avoid release to the environment.

SECTION 7 HANDLING AND STORAGE

Handling: Avoid direct contact with uncured material. Avoid breathing vapors or fumes. Wear protective clothing and equipment as described in Section 8. Use with adequate ventilation.

Storage: Store in a dry, well ventilated area away from heat, direct sunlight and all sources of ignition.

SECTION 8 EXPOSURE CONTROL/PERSONAL PROTECTION

Occupational Exposure Limits:

Engineering Controls: No special ventilation normally required.

Personal Protective Equipment:
Eye Protection: None required for handling solid material.
Skin Protection: Wear impervious gloves such as butyl rubber or nitrile to avoid skin contact when handling uncured material.
Respiratory Protection: None should be needed for normal use.
Other Protective Clothing or Equipment: None should be needed for normal use.

SECTION 11 TOXICOLOGICAL INFORMATION

Potential Health Effects:
Eyes: Contact with uncured material may cause eye irritation.
Skin: Contact with uncured material may cause irritation. Repeated skin contact may cause allergic reaction (sensitization).
Ingestion: Ingestion is unlikely due to form. Small amounts are not anticipated to cause adverse effects. Large quantities may cause gastrointestinal disturbances.
Inhalation: Inhalation of vapors or fumes from curing may cause irritation of the eyes, nose and upper respiratory tract. Symptoms include coughing and sneezing.
Chronic Health Effects: None known.
Carcinogenicity: None of the components of this product are listed as carcinogens by OSHA, IARC, NTP, ACGIH or the EU Directive.
