Westerville, OH 43082

Do you want to gain expertise when it comes to restoring All-on-X cases in your practice and taking workflows to the next level?

Then this program is for you.

Course Description

Transform your practice with comprehensive All-on-X expertise. Whether you're taking your first steps into full-arch implant dentistry, advancing your current skills, or optimizing your clinical workflows, this immersive program is designed to meet you exactly where you are in your technological journey.

Join **Dr. Fred Sakamoto**, **Dr. Richard Cunningham**, and the expert team at **ROE Dental Laboratory** for this unique hands-on learning experience. This exceptional faculty brings decades of combined expertise in full-arch rehabilitation and cutting-edge digital workflows.

This program covers many aspects of successful All-on-X treatment, from initial consultation through final delivery, including patient selection, fees, record collection and analysis, and what to expect at each stage of the process. We'll explore multiple workflow options, from traditional analog techniques to fully digital protocols, to effectively manage and complete the restorative part of full arch treatment.

Learning Objectives:

- Evaluate and select appropriate candidates for All-on-X treatment
- Establish appropriate fee structures for All-on-X services
- Implement efficient record collection and analysis systems
- Streamline appointment scheduling and case management
- Develop comprehensive treatment plans for full-arch cases
- Compare and contrast analog versus digital All-on-X workflows
- Select appropriate technology and techniques for your practice

Dental Implant Trainers, LLC is a Nationally Approved PACE program for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority or AGD endorsement. The current term of approval extends from 4/1/2021 to 3/31/2026. Provider ID# 386016

Schedule

9:00am Program Kickoff

- Meet the instructors & team: Dr. Sakamoto, Dr. Cunningham, and ROE

9:30am Case Workflow, Selection, & Common Challenges

- How to streamline the process of getting these cases started?
- Does your team have a high-level understanding of case demands?
- How does a good candidate present?
- Is the record-taking staff knowledgeable?
- How to discuss treatment options with patients; overcoming objections; putting minds at ease; and closing the next appointment for a treatment plan presentation

10:00am Restorative Workflow Options: Analog to Fully Digital

- Step-by-step comparison of various workflows, with detailed take-home documentation to guide the case
- Compare and discuss the fully digital workflow vs analog and how to save time and appointments
- Workflows: duplicate appliance with stackable guide, iJIG, ArchBridge, and Photogrammetry

10:45am Material Selection & Long-Term Success

- Finishing the case - review prosthetic materials, benefits of fixed full-arch solutions, and post-treatment care protocols
- Titanium copings vs direct to MUA
- Advantages of advanced prosthetic screw types
- Material comparison: Graphenano, Zirconia, Zirconia w/ Bars, Bespoke, Ivotion

11:30am All-on-Xpert Study Club & Mentorship Program Introduction

- We will discuss the agenda and topics for a deeper dive on placing or restoring all-on-x cases in your office
- Analysis of your patients' records of case selection and overcoming challenges
- Chairside over-the-shoulder mentorship.

12:00pm Program End
