

## June 5<sup>th</sup> 2026

1-4pm EST

300 Marconi Blvd, Suite 200

Columbus, OH 43215

Experience a streamlined restorative workflow with live demos, expert scanning tips, practical photo guidance, and easy access to lab tools and support. If you want a smoother, more predictable process,

**This course will show you how.**

### Course Description

This course provides a comprehensive, hands-on introduction to the ROE Fit Tray restorative process, guiding clinicians through efficient record-taking techniques that support predictable case outcomes.

Participants will observe live demonstrations on capturing ROE Fit Tray records and scans for seamless case submission, as well as 360° scanning methods used for precise denture replication. Attendees will also learn how to access and navigate our online lab resources and connect with our technical support team to enhance workflow and overall case success.

### Learning Objectives

- Learn the ROE Fit Tray restorative process and understand how it streamlines predictable clinical outcomes.
- Watch a live demonstration on capturing ROE Fit Tray records and scans for seamless case submission.
- Observe a live demo of 360° scanning techniques used for accurate denture replication.
- Master best practices for capturing challenging scans and improving the quality of your clinical records.
