Live Zoom Webinar

Speaker: Dr. Dale Spadafora, MAGD

If you're looking to expand who can qualify for fixed full-arch treatment, clinically and financially, while maintaining long-term prosthetic success, **then this course is for you.**

Course Description

This one-hour continuing education program in partnership with Stabili-Teeth explores a patented full-arch treatment philosophy that reimagines existing implant and restorative technologies to expand access to fixed full-arch care while maintaining exceptional practice profits.

Participants will learn how strategic implant placement, principles of force distribution, and a novel prosthetic retention approach work together to create a stable, fixed full-arch restoration.

The program also reviews key biomechanical concepts, treatment planning considerations, and the engineering principles that support this innovative approach. Attendees will leave with a practical understanding of the clinical rationale and applications behind this innovative treatment concept which can have a significant effect on practice success.

Learning Objectives

- Understand the biomechanical principles that contribute to immediate stabilization and long-term prosthetic success.
- Evaluate factors that influence patient candidacy for fixed full-arch treatment.
- Review limitations associated with conventional full-arch treatment models.
- Discuss how existing attachment technologies may be reimagined to create retention for a fixed prosthesis.
- Explore how innovative treatment design may expand access to fixed full-arch rehabilitation while maintaining predictable outcomes.

Presented by: **Dr. Dale Spadafora, MAGD**

Dr. Dale Spadafora is a nationally recognized restorative and implant dentist, educator, and lecturer who is among fewer than 1% of U.S. dentists to earn Mastership in the Academy of General Dentistry (MAGD). A Diplomate of the International Congress of Oral Implantologists and multiple-time Pittsburgh Top Dentist, he is a lead educator for Stabili-Teeth® and is dedicated to advancing clinical excellence through education, innovation, and patient-centered care.
