

No photogrammetry scanner? No problem! We'll come to you.

LET ROE SUPPORT YOUR LOCAL PHOTOGRAMMETRY NEEDS.

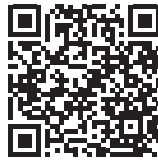

If you live in or around Toledo, Detroit, or Chicago - ROE is now offering a **complimentary photogrammetry** chairside service technician to help serve in your restorative records process.

Whether it is surgery day or on the way to a final prosthesis, Harry will come to you to help capture the photogrammetry records needed to restore your patient's smile.

We look forward to supporting your team!

To book your **FREE** on-demand PhotoG service with Harry, simply scan the QR code, or email harry@roedentallab.com

PhotoG to Final Prepaid Packages

We'll come chairside on surgery day to take the photogrammetry records we need to design your immediate load prosthesis.

Post-healing, we will redesign your prototype tryin from your updated scans and once fit is approved, ROE will fabricate the direct to MUA final zirconia.

We have 2 great options to choose from to meet you where you are!
